

Introducing Shelf Stable Krrrrisp Kraut.®

The most convenient kraut ever.

For foodservice pros, having sauerkraut available in shelf stable poly bags means three things:

- 1 Convenience**
- No refrigeration required before opening
 - Less bulky, lighter case weight
 - No sharp edges after opening
 - Right-sized pouch fills a 1/6 Cambro® container

- 2 Quality**
- Always fresh packed, never cooked
 - Bright color and crisp texture
 - Appetizing presentation

- 3 Sustainability**
- Less packaging waste by weight and volume
 - Less disposal costs and landfill use

Compare to cans:
this packaging waste
is from 155 pounds
of sauerkraut.
